

ACCY Mission Beach Retreat 2017

Accommodation Options

The Sanctuary Eco Retreat is set in the rainforest on the shores of the ocean. ACCY has run retreats from the Retreat centre before, and has always been pleased with the beautiful surrounds, the friendly service, and focus on minimalizing intrusion on the environment.

From the Sanctuary Eco Retreat website:

Capturing the cool, green light of the rainforest, accommodation is in secluded forest huts nestled in the rainforest canopy. A minimalist design maximises the sights, sounds and smells of the rainforest whilst giving some personal space to those creatures you may prefer not to sleep with. Accessed by a boardwalk to protect the forest floor, the rainforest huts have no solid walls, instead the timber structure is screened on all four sides with weather proof curtains able to be drawn for privacy and protection from adverse weather. Each hut has a small verandah, simple furnishings and sleeps two in either double or twin occupancy.

To see more detailed information about the rooms available, please visit the [Sanctuary Eco Retreat webpage](#).
