

ACCY Mission Beach Retreat 2021

Accommodation Information and Upgrade Options

The Sanctuary Eco Retreat is set in the rainforest on the shores of the ocean. ACCY has run retreats from the Retreat centre before, and has always been pleased with the beautiful surrounds, the friendly service, and focus on minimizing intrusion on the environment. There have been a few upgrades since our last retreat – we're looking forward to getting up there again!

Information below is copied from the Sanctuary Eco Retreat website. Our retreat prices are underneath. Please make your booking through ACCY not through the Sanctuary Retreat Centre to avoid double booking rooms.

Accommodation

Sleeping in the rainforest is a unique experience because it's at night when the rainforest comes alive...

The gentle trilling from an orchestra of insects interspersed with the croaking of frogs and the occasional haunting cries of owls is a soothing and entirely natural symphony to fall asleep to.

In keeping with the Sanctuary low impact philosophy, buildings are designed and constructed to ensure that the vegetation and birdlife is disturbed as little as possible. Additionally, to minimize ongoing greenhouse gas emissions, the natural cooling effect of the rainforest was incorporated into the designs so that air-conditioning is not required and more than adequate cooling is produced from cross ventilation and ceiling fans. Two unique and

contrasting styles of accommodation are offered at Sanctuary to suit all tastes and budgets.
